Whitney Alary has more than 15 years of business and litigation consulting experience. She has been retained as an economic and damages expert and has assisted the named expert on numerous occasions.

Whitney has determined economic damages in a variety of matters related to commercial litigation, government contracts, class actions, bankruptcy, and intellectual property. She has prepared and analyzed claims for lost profits, increased costs, loss of business value, and other financial and economic impacts. She has also investigated and analyzed fraud allegations, including under the False Claims Act.

Whitney has assisted clients across a variety of industries such as aerospace, government contracts, energy, mortgage banking, software, construction, investment management, financial services, professional services, entertainment and sports, and telecommunications.

Whitney specializes in complex data analysis, including building intricate and dynamic financial models and constructing, managing, and analyzing large databases.

Whitney holds a degree in business economics with minors in accounting and Spanish from the University of California, Los Angeles.
