Scheduling

WWL Thought Leaders – Construction Experts 2021

Scott has testified as an expert in arbitration and court proceedings and has presented schedule delay and damage analysis during settlement negotiations.

Scott has experience working in Africa, Asia, the Middle East, North America and Central America. He has worked with clients from sectors including buildings, defense, industrial, infrastructure, industrial, power and utilities, and technology. He also has further experience in waste remediation projects, education, hospitals and hotels.

Scott has consulted on behalf of construction contractors, project owners, insurance companies, and government contractors. Scott has led teams analyzing critical path method (CPM) schedules to determine causes and durations of project delays. He has also led financial analyses

AACE International
International Bar Association (IBA)
American Bar Association (ABA)

Services

Quantum, Delay & Disruption

Sectors

Power & Utilities, Industrial &
Manufacturing, Buildings,
Transportation Infrastructure

to quantify project cost growth including those related to delay, disruption, acceleration, and productivity. Scott has performed forensic investigations of construction costs incurred including review and analysis of invoices, payment applications, bank records, and other documentation to verify work performed and to determine percent complete at various points in time on a project.

Scott holds a BS Engineering and is consistently recognized in Who's Who Legal in its Construction Expert Witness publication, including as a Thought Leader in 2021. He is a member and fellow of the Project Management College of Scheduling (PMCOS) and has undertaken an Executive Education Finance course. He is a member of the Association of the Advancement of Cost Engineers (AACE), a member of the International Bar Association (IBA), a member of the American Bar Association (ABA), and a member of the Chicago Building Congress (CBC).

Scott Hollingsworth is “everything you want in a scheduling/damages expert” according to sources who “cannot say enough great things about his work” and would “highly recommend him”.
