

Expert Highlights

- Certified Public Accountant.
- Certified Fraud Examiner.
- Designated as an expert or submitted an expert report on multiple occasions.
- Expertise in the analysis of large data sets and databases for complex and dynamic financial modelling.

Alex Menenberg has almost 15 years of experience in forensic accounting and commercial damages. He has been appointed as an expert on multiple occasions.

Alex has testified in arbitration and deposition and submitted expert reports in Federal Court, and for matters outside of litigation including confidential investigations and pre-litigation disputes. He has consulted on a variety of financial, economic, and accounting related issues arising out of business disputes and civil litigation.

Alex has experience conducting funds tracing and performing analyses related to financial fraud allegations. He has worked with Fortune 100 corporations across a variety of industries including entertainment, financial institutions and services, real estate, insurance, consumer electronics, energy, and construction.

Alex has assessed damages related to breach of contract, lost profits, lost wages, intellectual property infringement, increased costs, and theft of trade secrets. He also has broad experience working with large datasets and is adept at designing, constructing, and analyzing large databases to create complex and dynamic financial models.

Alex is a Certified Public Accountant (in the State of California) and a Certified Fraud Examiner with a degree in economics from Pomona College. He has undertaken various speaking engagements regarding economic consulting, managing complex transactions, and insolvency damages. He serves on the board of directors of Bet Tzedek Legal Services.
