

Future Leader - Arbitration
2023

Construction 2023

Consulting 2023

Southeast Asia 2023:
Arbitration & Construction

Expert Highlights

- Highly qualified engineering professional.
- Proven as a credible expert witness under cross-examination, including 'hot-tubbing'.
- Acted as an expert witness in both arbitration and adjudication proceedings.
- Hands-on experience of large-scale construction and engineering projects.
- Specialises in prospective and retrospective delay analysis.
- Recognised since 2019 as a WWL Future Leader in construction and arbitration.

Andrei is a mechanical engineer with almost 15 years of construction and civil engineering experience. He has been appointed as a delay expert and assisted the named expert on numerous occasions.

Andrei Soltan is highly recommended for his deep delay expertise with clients highlighting his “in-depth analytical skills” and “wonderful end product”.

WWL Consulting Experts – Construction – Quantum Delay & Technical 2023

Andrei has provided independent expert testimony on matters of delay and disruption to Dispute Adjudication Boards and an ICC arbitration proceeding. He is an accredited expert and has been cross-examined by leading specialist construction and engineering lawyers.

Andrei has a background in quality management and health and safety, including expertise in management systems and compliance with design supervision and execution of works contracts. He has gained expertise from his work for both consulting and contractor organizations and on a wide range of national and international projects, ranging from oil and gas, petrochemical, offshore, civil engineering infrastructure, offices, buildings, and technology projects.

Andrei specialises in a wide range of analysis techniques including time
