Angelica Boca is a Chartered Quantity Surveyor with 25 years of construction and engineering industry experience. She has been appointed as a quantum expert and has assisted the named expert on numerous occasions.

Angelica is very diligent, thoughtful, effective and calm. She is deeply knowledgeable and attentive to detail. She is dedicated to ensuring her analysis is thorough.

WWL Construction Expert Witnesses 2024

Angelica has experience of litigation, international arbitration and adjudication, acting as the single joint expert in arbitral proceedings as well as assisting the appointed adjudicator and named expert in analysis and submissions. She has acted as the quantum expert for disputed projects with values in excess of €250 million and is experienced in dispute resolution in many European jurisdictions.

Angelica's construction background has a focus on commercial and contracting matters, working for contractors, sub-contractors and employers. She has worked on major projects throughout Europe and Australia ranging from process and energy (hydroelectric, wind farms,

wastewater treatment, oil and gas), infrastructure (highways, railways, bridges, ports), and buildings (commercial facilities, hotels, housing). Angelica is well versed in various standard forms of contract including FIDIC, ICE, JCT and NEC as well as a variety of bespoke contracts.

Angelica specialises in the quantification of claims such as prolongation, disruption, acceleration and variations. She has particular expertise with the FIDIC suite of contracts and is widely experienced in UK statutory adjudications and dispute adjudication boards (DABs), acting for both employers and contractors.

Angelica is a fellow of the Chartered Institute of Arbitrators and a member of the Royal Institution of Chartered Surveyors, the Society of Construction Law and the Academy of Experts. She holds diplomas in surveying, arbitration and adjudication and an advanced professional award in expert evidence from Legal Experience Training (LETAPAEWE), she has also completed a variety of Bond Solon expert witness training.

Angelica Boca receives widespread acclaim as being “very adaptable to the particular circumstances of the dispute” and is highlighted by sources for her “in-depth knowledge and attention to detail”.
