Brian has testified in state and federal courts, the United States Court of Federal Claims, arbitrations, and depositions. He has participated in mediations, settlement negotiations and other proceedings presenting expert analysis and developing alternative methods to resolve disputes.

Brian is a widely experienced consultant, supporting clients regarding finance, accounting, economics, damages, and data management and analysis issues in disputes and general business consulting matters. He has prepared or critiqued damages claims for lost profits, increased costs, business value, and royalties.

Brian has extensive experience in government contracts including claims, REA's, terminations, overhead rate reviews, cost impact proposals, false claims, and regulatory compliance. His construction expertise ranges from analysis of delay and disruption costs to change orders, contract issues, reimbursability of costs and increased cost claims.

Brian holds a master's in business administration (concentrations in finance and accounting) and a degree in economics and business.
