Expert Highlights

- Widely experienced professional engineer.
- Seven years of hands-on experience as a general contractor and project manager.
- Experience working with all project parties which allows complete perspective on issues.
- Effective structured approach to document review, analysis and report writing.
- Main author of guide of best practices for management of construction projects by Ordre des Ingénieurs du Quebec.
- Fully bilingual (French, English).

Charles Bucci is a professional engineer with almost 15 years of construction industry experience. He has been retained as a delay and quantum expert on numerous occasions.

Charles is a top choice for high-value construction disputes.

Charles has the ability to cut through vast amounts of documentation to produce very well-written, focused and persuasive expert reports.

WWL Construction Expert Witnesses – Future Leaders 2023

Charles has provided independent assessment and expert reports for disputed projects in arbitration and litigation proceedings. He has acted as expert for disputed values of up to \$150 million and for projects with values of up to \$1.5 billion, ranging from major infrastructure and power projects to a wide variety of building uses.

Charles has worked on multiple projects at two leading general contractors in Canada where he held various positions. As a project manager, he was responsible for the complete supervision and coordination of all steps of complex construction projects, including supervision of project teams, communication with stakeholders, control of costs and schedules, preparation and negotiation of subcontracts, and change management.

Industries

Buildings, Mining and Metals, Oil and Gas, Power and Utilities, Production and Manufacturing, Transportation Infrastructure

Regional Experience

Americas

Charles specialises in disputes related to changes, delays, loss of productivity, and quantification of damages. He provides advisory and expert support for owners regarding program and project management services and for a variety of clients on optimizing project management processes, reviewing and implementing project controls, and preparing and defending construction claims.

Charles is a member of Quebec's Order of Engineers (Ordre des ingénieurs du Québec) and the main author of their guide to best practises for the management of construction projects. He is a member of the Association for the Advancement of Cost Engineering International and the Project Management Institute and is fluent in both English and French. Charles also speaks at industry conferences about construction dispute resolution, project management, and construction innovation.

Charles Bucci receives extensive endorsements for his construction practice which sees him routinely engaged in high-value disputes involving major infrastructure and power projects.
