Colin Russell is a Chartered Quantity Surveyor with over 25 years of experience in the construction industry. He has extensive experience in quantum and delay analysis and has been appointed as an expert witness on four occasions.

Colin is very diligent and easy to work with. He has broad and deep industry experience. He is an excellent communicator, explaining complex quantum issues to clients in a clear and coherent way. Highly experienced, pragmatic and with a real commercial eye for issues.

WWL Construction Expert Witnesses 2024

Colin has acted a quantum expert regarding infrastructure and buildings disputes in the Middle East, on projects valued up to US\$150 million. He has also acted as assistant to the party appointed quantum and delay expert for a claimant in an ICC arbitration.

Colin has worked on a variety of projects, including building construction, wastewater treatment, oil and gas fired power stations, airports and highways throughout the Middle East and Europe. His experience as a quantity surveyor and commercial director informs his dependable quantum and delay analysis.

Colin is experienced in leading teams in the preparation of delay,
