

Expert Highlights

- Certified Public Accountant
- Significant experience supervising construction cost audits and investigations
- Experience with fraud investigations, in various sectors including financial institutions and manufacturing sectors
- Frequently manages large project teams

Lisa Allen specializes in the investigation and resolution of business disputes, primarily related to the construction, government contracts, and commercial damages practice areas.

Lisa has analysed accounting and financial damages issues. She has provided litigation support in various types of disputes including construction disputes, commercial damages investigations, government contracts disputes, breaches of contract, lost profits disputes, accounting investigations, and others.

Lisa is experienced in buildings, infrastructure, insurance, power and utilities, financial institutions and manufacturing, and has supported clients with disputes in Asia, Africa, Europe and North America. She has worked with Fortune 500 companies along with smaller companies, including construction contractors, insurance providers, manufacturers, and financial institutions.

Lisa Allen has a bachelor's in financial consulting and a bachelor's in French. She is Certified in Financial Forensics and is a member of the American Institute of Certified Public Accountants (AICPA) and the Illinois CPA Society (ICPAS).
