Expert Information

Qualifications

Master Air Pilot, Central Flying School A1 Instructor

Professional Memberships

FRAeS, Liveryman Honourable Company of Air Pilots

Services

Forensic Technical, Quantum

Sectors

Technology

Lloyd Watson is a licensed pilot with 40 years of experience. He has been appointed as an aviation technical expert on more than 40 occasions.

Lloyd has been cross-examined in litigation on three occasions regarding various aviation operations, inflight incidents, and accidents. He provides expert evidence and reports regarding the root cause and contributory factors of the accident to provide a narrow focus on liability.

Lloyd is a former Royal Navy helicopter pilot, having spent more than 20 years flying offshore operations around the world. He has also flown for commercial airlines and acted as an operations director responsible for efficient and safe day-to-day operations. He subsequently qualified as an instructor and examiner and has also worked as an aviation advisor.

Lloyd specialises in accident analysis and the management of aviation risks. He is an expert in human factors analysis, as applied to the accident, and draws on a global network of experienced aviation experts as needed for further analysis and dispute resolution. His expertise as an air transport pilot incorporates both fixed wing and rotary aircraft.

Lloyd is a Master Air Pilot, Central Flying School A1 Instructor. He is a fellow of the Royal Aeronautical Society and Liveryman with the Honourable Company of Air Pilots.
