Martin Leatham is a Chartered Architect with over 40 years of experience. He has been appointed as a technical expert on numerous occasions.

Martin has been cross-examined in international arbitration and provided concurrent evidence (hot-tubbing) on various large disputes in Asia Pacific. He has acted as the architectural expert, provided expert opinion, and delivered expert reports for a broad mix of buildings and infrastructure projects with disputed amounts in excess of \$190 million.

Martin has extensive experience as a lead consultant and project manager for large and complex architectural teams and projects. He has led teams throughout all design and construction work stages particularly in hospitality, educational, commercial, retail, infrastructure, high speed rail, rail transit, and airport related projects.

Martin's expertise ranges from building defects, compliance with statutory building standards and codes, architectural design, and design management and procedures to standards of materials and workmanship, contract administration, and potential negligence; as well as the impact of various procurement routes. He also provides design advisory expert opinion for clients regarding variations, defects, and incomplete work.

Martin is a member of the Royal Institute of British Architects and the Architects Registration Board of the UK. He is an associate member of the Singapore Institute of Architects and a certified quality system auditor for ISO 9001.
