Neil McDonald is a Chartered Building Services Engineer with over 30 years of buildings and property experience. He has been appointed as a technical expert on numerous occasions.

Neil is a great construction expert with a strong background in mechanical engineering. He has a good grasp of issues and depth of knowledge.

WWL Construction Expert Witnesses 2023

Neil has been cross-examined at a court hearing in the Technology and Construction Court, London and has been cross examined at arbitration hearings in Australia and Austria. He has acted as both individual expert witness and as part of a multi-disciplinary team of experts on large, complex disputes.

Neil has a comprehensive understanding of the design, procurement and construction process for a variety of building types ranging from healthcare and education to retail and commercial property. He advises clients in relation to disputes involving mechanical building services and plumbing issues.

Before joining HKA in 2016, Neil worked in building services consultancy. He is experienced in demolition, refurbishment and new build projects at all stages of the project lifecycle; from early briefing and development through to construction, commissioning and handover.

Neil McDonald is a member of the Chartered Institution of Building Services Engineers and the Society of Public Health Engineers. He holds a degree in engineering with building services and an HNC in heating and
