

Expert Highlights

- Proven as a credible expert under cross-examination.
- Experienced engineering designer and manager in the UK and overseas
- Specialist in highways design and project management.
- Managed major multi-disciplinary projects up to a value of US\$280m.
- Strong transport planning skills.
- Given evidence in dispute hearings, planning appeals, arbitration and to a Parliamentary Select Committee.

Expert Information

Qualifications

BSc (Hons) Civil Engineering

Professional Memberships

CEng, Eur Ing, FICE, FCIHT

Services

[Engineering, Architectural and Technical](#)

Industries

Transportation Infrastructure

Regional Experience

Africa, Europe, Middle East

Peter Caillard is a Chartered Civil Engineer with nearly 40 years of experience in the construction industry. He is widely experienced in the design and construction of highways, transport and infrastructure projects.

**Peter's work is concise, thoughtful and efficient.
He is always fully engaged with his work.**

Lexology Index – Construction

Peter has managed projects through all stages of construction from preliminary design through to final account using a variety of forms of contract. He has been engaged with projects throughout the world including the UK and Europe, the Middle East, Africa, and North America, and his experience covers all aspects of design and construction including highway geometry, road pavement construction, drainage, earthworks, highway structures, public utilities, and materials testing. He is also experienced in transport planning, both for public infrastructure projects and private developments.

Peter has also undertaken research projects on behalf of the Department of Transport, and has developed draft technical standards both in the UK and overseas. He has also executed safety audits for a wide range of projects and led investigations into road traffic accidents in the UK, followed by preparation of reports for litigation.

He has undertaken forensic investigations relating to engineering disputes on many occasions and testified at dispute hearings and planning inquiries, including planning appeals, arbitrations, and

mediations. He gave evidence to the House of Commons Select Committee during the passage of the enabling legislation for the Channel Tunnel Rail Link.

Peter Caillard ranks highly among peers thanks to his wealth of experience assisting in all stages of the construction process and track record in disputes across Europe, the Middle East, Africa and North America.
