Americas, Asia

Randy Besich is a Forensic Accountant and Commercial Damages expert. He has over 14 years of experience in financial, accounting, and economic matters in numerous industries, with specific expertise in the nuclear power industry.

Randy has expanded the firm's Power and Utilities practice and is regularly meeting with executive teams of Fortune 500 utilities. He has also assisted clients in financial reporting, audits, strategic analysis, investigations, and resolution of complex business disputes.

His litigation work has focused primarily on commercial litigation and valuation matters, including breaches of contract, breaches of fiduciary duty, fraudulent conveyance, funds tracing, and shareholder disputes.

Randy Besich has managed the preparation of expert reports and depositions, and trial exhibits, for both state and federal courts, and has assisted his utility clients with regulatory reporting and accounting matters in numerous public utility commission proceedings.
