Expert Highlights

- Internationally experienced construction professional.
- Proven as a credible expert witness under cross-examination in arbitration.
- Broad experience in quantity surveying, dispute management, dispute resolution and litigation support.
- Provides strategic advice for clients based on both contractor and consultancy experience.
- Expertise includes the energy, infrastructure and industrial sectors.

Scott Ramsden is a quantity surveyor and construction professional with over 30 years of experience. He has acted as a quantum expert and assistant to the named expert on multiple occasions.

Scott has a practical and common-sense approach to complex issues. He has hands-on experience of construction projects and organisations. He is focused on dealing with the issues he is appointed to investigate.

WWL Construction Expert Witnesses 2023

Scott has been cross-examined as a witness in mediation and arbitration proceedings. He has been appointed as an independent quantum expert in arbitral proceedings relating to offshore oil and gas, with disputed values of US\$250 million. He has also acted as lead assistant for offshore oil and gas, power and infrastructure project disputes.

Scott has over 20 years of international experience, including 15 years working in the Middle East and Asia, as both a contractor and consultant. He has provided commercial management services to major international contractors and oil and gas companies and supports clients with wide ranging strategic advice.

Scott's sector expertise includes ports, [mining](#), oil and gas, infrastructure, airports, buildings, power, and industrial projects. He has considerable experience in the preparation, defence, negotiation and settlement of
