Seyran Celik is a civil engineer with more than 15 years of industry experience. She has been appointed as an expert in delay, quantum and technical matters.

“Seyran Celik is a highly regarded quantum expert with peers and clients highlighting her “close attention to detail” and “keen sense of strategy”.”

WWL Experts – Consulting – Quantum, Delay & Technical 2023

Seyran has undertaken expert analysis, written expert reports and assisted the named expert for disputed projects with values of up to \$1 billion. She has provided expert services for international arbitration, litigation and mediation and has delivered sworn testimony at deposition.

Seyran has significant project management and design experience as a geotechnical engineer. She has provided services relating to preconstruction phase feasibility studies, damage studies, remediation solutions, subsurface investigations, and environmental assessments. Her international work consists of government contracts and embassy work, defense and military, transportation, infrastructure, healthcare, education, wastewater, and commercial high-rises.

Seyran’s expertise includes analysis of shallow and deep foundations, slope stabilization, ground improvement, and roadways. She has been retained as a delay and disruption professional by local and international contractors, owners, architecture and engineering firms, and law firms. She has also assisted internationally acclaimed delay and quantum
