Werner LuÛs is a Chartered Quantity Surveyor with almost 20 years of experience. He has been appointed as a quantum expert and acted as lead assistant on numerous occasions.

Expert Information

Qualifications

MSc Construction Management and Construction Law
BSc Quantity Surveying

Professional Memberships

MRICS, MCIArb

Services

[Construction Quantum Analysis](#)

Industries

Buildings, Marine and Shipping, Oil and Gas, Power and Utilities, Production and Manufacturing, Transportation Infrastructure

Regional Experience

Africa, Asia, Europe, Middle East

Werner has prepared expert reports on quantum matters in dispute and assisted the named quantum and delay experts during proceedings of complex, high-value disputes in international arbitration. His impressive range of project experience, some which exceed US\$1bn in value, includes major infrastructure schemes (an airport, and rail systems), healthcare facilities, an onshore windfarm, offshore oil and gas systems, and ship building.

Werner has worked for contractors, dispute resolution consultancy firms, and professional quantity surveying firms. He has been engaged in a wide range of projects in the buildings, infrastructure, resources, power and utilities, and ship building sectors in the UK, Europe, Africa, Middle East, and Asia regions.

Werner specialises in quantity surveying, commercial management, expert witness and advisory services, and he has extensive experience working with project teams on live projects.

Werner is a member of the Royal Institution of Chartered Surveyors and the Chartered Institute of Arbitrators. He holds a master's in construction management and construction law and has completed an advanced professional award in expert witness evidence with Legal Experience Training.
