WELCOME TO THE WORLD OF GOLD SPONSOR
23-25 May 2018
18th Annual International Conference & Workshop: Tokyo, Japan
HKA is one of the world’s leading privately owned, independent providers of consulting, expert and advisory services for the construction, manufacturing, process and technology industries.

As trusted independent consultants, experts and advisers, we deliver solutions amid uncertainty, dispute and overrun, and provide the insight that makes the best possible outcomes a reality for public and private sector clients worldwide.

Our global portfolio includes some of the world’s largest and most prestigious projects across a wide range of market sectors that include buildings, industrial, infrastructure, oil and gas, power and utilities, and technology.

Our new HKA brand unites the former Construction Claims & Consulting Group of Hill International and associated subsidiaries following our sale and de-merger from Hill International, Inc.
HKA has extensive experience of representing clients in dispute board and contract adjudication proceedings on many of the largest and most complex construction projects in the world.

Dispute boards and contract adjudication are party agreed mechanisms for the independent and impartial deciding of disputes that arise between parties on construction and engineering projects.

**BENEFITS**

The benefits of dispute boards and contract adjudication include the ‘fast-track’ and ‘real-time’ giving of decisions during the currency of a project by one or three independent persons selected and appointed by the parties. Early decisions allow parties to proceed with certainty and prevent the stacking-up of disputes at the end of projects.

Standing dispute boards and contract adjudicators act throughout the duration of a contract and carry the advantages of building up extensive knowledge of a project and its evolving issues as well as establishing trust and mutual respect with the parties.

These result in an effective dispute resolution process, and explain why the majority of dispute board and contract adjudication decisions finally resolve party disputes or facilitate amicable settlement by the parties themselves.

Dispute boards and contract adjudication have become standard features of the most widely used international forms of contract.

**SERVICES**

HKA provides the full range of expert services needed for the securing of favourable decisions, including:

- Dispute strategy and management of proceedings, including hearings
- Written and oral advocacy of case
- Expert witness reports
- Dealing with jurisdictional and other types of challenge
- Amicable settlement and without prejudice negotiations
