

Schedule of Oil & Gas expertise

HKA has a broad portfolio of specialist oil and gas experts with extensive technical, contractual and management experience in the oil & gas industry worldwide. HKA continues to expand its technical breadth, depth, and geographical spread through over 40 offices in 18 countries. HKA occupies the unique, multi-disciplinary space that combines quantum, engineering, delay, disruption, damages, and government contracts. We call this capability, QED+. Our experts are specialists in their field and experienced in helping clients and their advisors resolve disputes.
